

**CALLING ALL TEXAS LIONS!!!
CHICAGO—HERE WE COME!!!**

The Lions of Texas have made their presence felt at the Lions International Conventions from the beginning in 1917. Since Denver in 2003, we have had a powerful and visible presence partly through our commitment to International President Jimmy Ross. In Detroit in 2004 when President Jimmy was running for Second Vice President, Texas Lions "knocked their socks off with the Taste of Texas event which is still a topic of conversation among Lions around the world who were there. In Boston in 2006 to mark President Jimmy's ascension to the Presidency, Texas Lions wowed them with the white horses and band from Hardin Simmons as well as our impressive numbers who not only attended the convention but VOTED in the election. NOW is the time for the Lions of Texas to once again be a major part of the action and show our pride in having a Texan as International President by once again making our presence felt in Chicago for the 90th International Convention. There are many excellent reasons to attend the International Convention in Chicago but none better than to demonstrate our continuing support for the long, tall Texan from Quitaque who has worked so hard over the past years, especially the past four, and has made us proud to know him personally. **Texas IS the largest multiple district in North America in membership. We SHOULD have the largest delegation in Chicago.** It will be a great opportunity to visit the headquarters of Lions International, to visit the historic city itself and have lots of fun with the other Lions of the world, and then stand and cheer with Texas pride as Jimmy addresses the Lions of the world for the final time as President. **Make your plans now to attend and join the Lions of Texas as we show why everyone knows when the Lions of Texas are in town!**
